

Gurram Chandini

B.Tech – Computer Science and Engineering | Graduation: 2028
CGPA: 9.46 | No Academic Backlogs
HackerRank | LinkedIn | GitHub | LeetCode

Location: Kakinada, Andhra Pradesh, India
Email: chandinigurram1111@gmail.com
Mobile: +91-6301527465

SUMMARY

Third-year B.Tech Computer Science student with strong foundations in Data Structures, Algorithms, Object-Oriented Programming, and software development using C++ and Python. Experienced in building academic and AI-driven projects with interests in scalable systems, problem solving, and backend development. Seeking software engineering internship opportunities to contribute and grow in large-scale technology environments.

TECHNICAL SKILLS

Languages	: C, C++, Python, Java, SQL
Core CS	: Data Structures & Algorithms, Object-Oriented Programming,DBMS ,Operating Systems
Web Technologies	: HTML, CSS, Bootstrap
Tools	: GitHub, VS Code, Firebase
Concepts	: Recursion, File Handling, Exception Handling

COMPETITIVE PROGRAMMING

- Solved coding problems on LeetCode and HackerRank focusing on arrays, strings, linked lists, and recursion.
- Strengthened problem-solving and algorithmic thinking using C++ and Python.

PROJECTS

Student Management System	C++	GitHub
- Built a console-based application in C++ to manage student records using Object-Oriented Programming principles. - Implemented CRUD operations, file handling, and persistent storage for maintaining student data. - Used vectors, classes, and modular functions to improve code organization and scalability.		
AI-Driven Life Cycle Assessment (LCA) Tool	Python, Firebase	GitHub
- Developed a Python-based tool to analyze environmental impact metrics and store processed results using Firebase. - Integrated data processing workflows to evaluate sustainability indicators efficiently.		
AI Model Energy Efficiency Optimization	Python	GitHub
- Built a Python-based benchmarking system to analyze AI model energy efficiency under different optimization settings. - Compared model performance across compiler optimization levels and model sizes. - Visualized execution time and energy metrics using bar charts for comparative analysis.		

HACKATHONS ACHIEVEMENTS

- Brainovision — 2-day workshop and hackathon on Web App Development using Design Thinking and Innovation.
- Huebits Tech — 5-day hands-on workshop on IoT Design with ESP32 and cloud ecosystems.
- Selected for next rounds in a college-level hackathon demonstrating problem-solving skills.
- Maintained CGPA 9.5/10 in B.Tech CSE.
- NPTTEL — Data Structures and Algorithm Design (IIT Kanpur)(77%) | Top 5%, Silver Badge

EDUCATION

Pragati Engineering College	Surampalem
B.Tech, CSE CGPA: 9.5	2024–2028
NxtWave CCBP 4.0 Academy	
Full Stack Development Program	2025–Present
Aditya Junior College	Kakinada
Intermediate (MPC) 97%	2022–2024
Sri Vidya High School	Yeleswaram
10th Class 92%	2022

INTERNSHIPS

Green Intern	1M1B
Data Analysis Intern	
- Collected and analyzed energy consumption datasets. - Built interactive dashboards in Tableau for data visualization. - Identified opportunities to improve campus energy efficiency. - Prepared analytical reports summarizing insights and recommendations.
